**DETAILED ACTION*****Drawings***

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 23-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Papathomas et al. (5,656,862). Papathomas et al. teach benzocyclobutene; and filler particles dispersed in the benzocyclobutene (claim 43); wherein the particles are one of spherical particles and irregularly shaped particles (figure 1, items 5 and 3); forming benzocyclobutene; and dispersing filler particles within the benzocyclobutene (claim 43); forming a bump using the benzocyclobutene dispersed with filler particles on one of a die

and substrate (claim 43); wherein said step of forming the bump includes forming the bump by one of stencil printing and spin-coating (figure 1, items 5 and 3).

### ***Claim Allowance***

Claims 3-4 and 18-22 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not suggest or teach a method of making a flip chip, particularly where the bumps and the nonconductive film are cured to form a covalently bonded laminate structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
